

ETK-M-VD996

Motorized Lever Control

- Field Selectable Fail Safe (el) <-> Fail Secure (eu)
- Auto-voltage detection accepts 11-30V
- Low Energy only 100mA in-rush
- Offers Flexibility for your inventory
- Built in the USA

Motorized Lever Control

The ETK-M-VD996 (Exit Trim Kit) field installable electrification kit for Von Duprin 996L R/V & M Exit Trims provides motorized lever control that's field selectable from EU to EL or EL to EU & automatically senses 12 or 24V input, so there is no need to stock specific voltages or functions. Allowing your inventory to go further with fewer units. Includes a request to enter switch for monitoring the trim lever, essential for CHEXIT installations. The kit is built in the US & comes backed by our 3 Year No-Hassle warranty.

⚡ SPECIFICATIONS

VOLTAGE:

- Voltage range – 11 to 30 VDC
- Current Peak: 300mA
- Current Hold: 15mA
- Motorized Lever Control

MECHANICAL:

- Maintains breakaway lever
- Handing Field Reversible
- Works with both RIM, Vertical, and Mortise Function Trims
- For 996L maintains mechanical key override
- For 996L-BE no key override, blank escutcheon

PRODUCT DETAILS:

- Box: 4" x 4": x 2"
- Weight: 5 Lbs

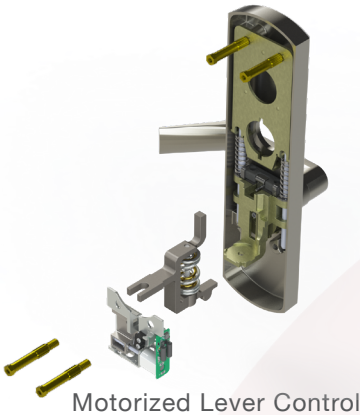

ACCESSORIES

- Request-to-Enter - Factory or Field Installable REE kit

⚡ FEATURES

- Continuous duty motor allows for great energy savings on "continuously on" applications such as Fail Safe for stairwell applications
- Low Current Draw - 300mA Max
- Field selectable Fail Safe (EL) <-> Fail Secure (EU)
- Low current draw makes it an ideal for POE systems.
- 6' cable with Quick Connect to easily connect to power supply lead
- Request-to-enter kit add-on available
- Tested to ANSI/BHMA Grade 1 electromechanical requirements
- Buy America Act
- 3 Year No-Hassle Warranty
